The FY 2015 OCO Request will be submitted at a later date.

Description:

The initial spares requirement funds all repairables and consumables allowances to support the quantity and type/model/series of aircraft in new procurement, during Interim Contractor Support and to support. The initial spares category includes interim spares for recently introduced equipment without adequate demand history using prescribed weapons utilization rates, as well as all aircraft engines and module spares. All spares requirements are developed using accredited sparing models. Funding requirements for major avionics are calculated on an item-by-item basis where possible.

The Vendor Direct spares element of the budget is comprised of the Aviation Outfitting Account, which sources spares from DWC/NWCF subsequent to Material Support Date, as well as a limited number of Headquarters Replenishment Accounts for spares procured at Naval Air Systems Command headquarters to support Executive Mission helicopters, interservice support requirements, and miscellaneous aircraft systems.

APN-6 funding for JSF will procure the Navy's proportional share of pooled aircraft spares and repair parts, to include spare engines and engine modules, in accordance with the joint cost sharing agreement entered by the Assistant Secretary of the Navy in Joint Program Office Decision Memorandum #25. Additionally, APN-6 funds will procure initial spares and repair parts necessary to outfit organic and commercial depot repair activities in satisfaction of the interim support arrangements made to achieve key sustainment milestones in the JSF program.

V-22 "To Complete" should read 145.364. Was not submitted in time to get into PBIS.

The FY 2015 OCO Request will be submitted at a later date.

Description:

This budget activity provides all WPN Spares funding formerly separately identified in the other WPN budget activities. The procurement of spares and repair parts and assemblies for WPN equipment requiring support by the acquisition activities prior to the Navy Supply System Material Support Date is outlined below for Initial and Vendor Direct spares.

Exhibits Schedule		Prior Years			FY 2013			FY 2014			FY 2015 Base			FY 2015 OCO			FY 2015 Total

Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.

Justification:

Spares funding is required for the initial outfitting and repair of missiles or components which fail or are damaged while in the Fleet, and for expendable items, such as guided missiles and non-recoverable target drones. For recoverable target drones, additional spares and repair parts are required to repair damage incurred in flight and recovery operations, and for control and telemetry equipment.

Funding also provides for Initial and Vendor Direct spares during the maintenance cycle to support Anti-Submarine Warfare weapons and support equipment, as well as, Initial and Vendor Direct spares in support of Navy surface ordnance consisting of all guns, associated equipment (hoists, shields, etc.) and related material support.

ID Code (A=Service Ready, B=Not Service Ready) : A	Program Elements for Code B Items:	Other Related Program Elements:
<p>The Tactical Tomahawk Block IV All-Up-Round production has been truncated with the last year of procurement occurring in FY14. Beginning in FY15, WPN-6 replenishment spares includes a series of life of type buys to ensure parts availability prior to the supplier's manufacturing lines starting to shut down in FY15. Spares procurements in FY15 are critical to support both the FY16-18 limited depot and preserve the schedule of the recertification of the Block IV start up in FY19. The gap in Tomahawk suppliers' production and the start of the Block IV recertification line in FY19 require the procurement of spares before sub-vendors terminate manufacturing. If spares are not procured starting in FY15, the requalification of new suppliers for these spares is estimated to take 2-3 years and would require additional funds.</p>

[#] The FY 2015 OCO Request will be submitted at a later date.

Description:

Spares - Funds are required to reimburse the Navy Working Capital Fund for both repairable and consumable components at the time the initial spare parts package is released with the principal end item (PEI) to the Fleet Marine Force. This concept complies with the Navy Working Capital Fund funding of Initial Spares with reimbursement from the Procurement Account. Funds also provide for direct vendor support of the PEI delivery to the Fleet Marine Force. Funds required under the General Purpose Electronic Test Equipment (GPETE) and General Purpose Mechanical Test Equipment (GPMTE) support the working capital funds sparing demands under these test equipment support program efforts.

This account has funding for the following programs:

Secure Mobile Anti-Jam Reliable Tactical-Terminal (SMART-T), Sensitive Compartmented Information Communications (SCI Comms), LAV Survivability Upgrade Program, LAV-AT System Program, Intelligence Equipment Readiness (IER), Common Aviation Command and Control System (CAC2S), Family of Material Handling Equipment (FMHE), Ground/Air Task Oriented Radar (G/ATOR AN/TPS-80), Training Spares FY13/Training Simulation Support FY14-19, MAGTF Secondary Imagery Dissemination System (MSIDS), Tactical Remote Sensor System (TRSS), Intelligence Analysis System (IAS), USMC Counter RCIED Electronic Warfare (CREW), General Purpose Tool and Test Equipment (GPTTE) (formally GPETE and GPMTE), RQ-21A Small Tactical UAS, Close Quarter Battle Pistol (CQBP), and Follow-on to SMAW (FOTS).

Justification:
FY13 Base Appropriation: \$3.014M

Training Device BLI 6532: Training Spares resources in the amount of \$43K provided funding that minimizes lost training capability by providing a small quantity of systems spares/parts to fulfill allowance pool quantities while systems are being repaired or replaced.

Weapons & Combat Vehicles Under \$5M BLI 2220: The \$50K provided for the purchase of initial spares in support of the Close Quarter Battle Pistol through the Prime Vendor.

Follow-on to SMAW (FOTS) BLI 3016: The \$236K provided for the purchase of initial spares in support of the FOTS system via Prime Vendor.

USMC CREW BLI 6520 - The \$1,535K provided for the purchase of initial spares in support of the procurement of USMC CREW MEU(SOC) Systems via the Prime Vendor.

Secure Mobile Anti-Jam Reliable Tactical - Terminal (SMART-T) BLI 4633: The \$188K of spares funding provided for direct vendor support of the principal end item (PEI) components delivery to the Fleet Marine Force.

Tactical Remote Sensor Systems (TRSS) BLI 4747: \$140K procured hardware spares for equipment in the TRSS System of Systems (SoS) to ensure repair time and equipment unavailability is minimized for the warfighter.

MAGTF Secondary Imagery Dissemination Systems (MSIDS) BLI 4747: \$427K procured spares for the hardware refresh of thermal components within the MSIDS Suite necessary to keep ground-based imagery collection and dissemination assets in operation, ensuring spares are available to the warfighter when breakage occurs to minimize equipment down-time.

Intelligence Equipment Readiness (IER) BLI 4747: The \$1K of spares funding provided for procurement of spare STINGRAY components.
